STORYTELLING CLUB

Wonders, Curious

Children explore literature from India and around the world through storytelling and associated activities.

VISUAL ARTS CLUB

Wonders, Curious

Children learn to appreciate visual art by engaging in art based activities, interacting with visiting artists, curating exhibitions and installations.

MUSIC CLUB

Seekers, Performers

Children and young people learn to appreciate music by getting introduced to various forms of music, artists, instruments and genre by playing, singing and interacting with visiting musicians and subject matter experts. They will also organize concerts.

FILM CLUB

Seekers, Performers

Children and young people learn to appreciate cinema by getting introduced to various filmmakers, writers and actors from different periods. They will also curate screenings interactive sessions with filmmakers.

Using drama to just create performances is like using a space-ship to get to your office.

Creating An Environment For Discovery

Our children today live in an environment where all sorts of information is readily available, there is instant gratification through gadgets and at the same time there is pressure to perform. There is no space for discovery. Drama offers children the stimulus, context and the reason to strive to discover knowledge and create meaning for themselves which is authentic and stays with the child for a very long time.
